FIGHTING CANCER EBOOKS 2019

Author: Robert Gorter, M.D., Ph.D. u0026 Erik Peper, Ph.D.

Realese Date: Lanzamiento previsto: @@expectedReleaseDate@@

u003ciu003eFighting Cancer u003c/iu003edescribes the Gorter Model, an integrative, nontoxic approach to cancer treatment that mobilizes the immune system. It was developed by Robert Gorter, MD, PhD, who in 1976 recovered from Stage IV testicular cancer by using nontoxic treatment and no chemotherapy or radiation. Based on self-experience, extensive research, and decades of clinical practice, the treatment consists of supporting the immune system using fever therapy (hyperthermia), inoculation with immune cells, the use of the botanical mistletoe (u003ciu003eViscum albumu003c/iu003e)—the single most commonly prescribed anti-cancer medication in much of Europe—supportive nutrients, and diet and lifestyle changes.u003cbr /u003e u0026#xa0;u003cbr /u003e Organized into three parts, u003ciu003eFighting Cancer u003c/iu003epresents a clear overview of the model, the research behind it, and strategies for strengthening natural immunity. Emphasizing stress reduction and minimizing toxic exposure, the authors provide practical guidance for patients: questions to ask doctors after diagnosis and advice for evaluating options, gathering information, and getting second opinions. Included are powerful testimonials from patients—most of whom have outlived their prognosis and, in some cases, achieved complete and sustained remission.
